

Sustainable Beer Champions

Kichesippi Beer Co.

Founded: Spring 2010

- 100% family owned
- 100% produced and distributed within Ottawa and surrounding communities
- Committed to continuously improving our sustainability performance

The Beer: We have three full time brands and one rotating seasonal brand

- **KNB** – An all malt pale ale, this is a clean drinking ale with a noticeable short bitter finish
- **1855** – An amber ale offering refreshing malt flavours with a balanced clean bitter finish
- **Heller Highwater** – A Bavarian style lager brewed with German noble hops and genuine Munich yeast
- Be on the lookout for **Logger** and **Bristol Stout** for the Fall

Sustainability

- Support the local economy by choosing more than 50% of our major suppliers from within Ontario
- Donate products and services to more than 30 charitable organizations within Ottawa
- Set goals and improve efficiency ratios for all material aspects of sustainability

Water Use and Wastewater Performance

Increased performance to reach higher efficiency ratio of water per HL of production.

Exceeded regulatory compliance and have taken steps to implement an innovative pre-processing system.

Energy

Reduced our energy intensity ratio of kWh per HL of production. Projects have included process, behavioural, and technological improvements.

Climate Change

Calculated total Scope I, II, and III CO₂-e emissions. Reduction projects have included value chain and production improvements

Solid Waste

Reduced solid waste from our baseline by through reduction, reuse and recycling projects

Inspiration

Kichesippi means “The Great River”. Prior to 1855, when the City of Ottawa was founded, the river running through it was known as the Kichesippi. The river has always been an integral part of the history of Ottawa and Eastern Ontario.

Our inspiration comes from the City of Ottawa and the people within it. We strive to provide the city with a high quality locally produced product in the most socially and environmentally responsible way possible.
